

Langley Field Naturalists Presents

Song Sparrows of Mandrate Island

Biology of Small Populations:

Song Sparrows of Mandarte Island!

Date: February 19, 2026— Time: 7:30 pm

Dr: Katherine Carbeck, Ph.D, UBC

Katherine's research focuses on the diversity, local adaptation, and genomics of song-sparrows range-wide. But she will focus broadly on the song sparrow system, touch upon my research, and the importance of having the long-term monitoring site locally

(on Mandarte Island) for the last 50 years.

**Langley Community Music School 2899-207 Street,
Langley, BC, Everyone is welcome!**
